## **RESOURCE 2.4 A Needs Assessment for Teachers of 21st Century Classrooms**

Use this tool to reflect on the presence of 21st century skills in your classroom. Decide the extent to which each skill is visible: consistently, sporadically, or not at all. Then, jot down ideas for next steps. While this tool can be completed individually, you can also use it for peer coaching. Ideally, the completion of this resource takes place after multiple observations over time.
